

ORGANISING SEMINAR & WEBINAR

1. Title of the Practice

Organized various seminar and webinar

2. Objectives of the Practice

- The main objective of a Seminar and webinar is to instruct, demonstrate, or educate academicians and students also.
- To identify practical learning skills and concepts that will promote students' academic success. To encourage students to explore the connection between university study and life enrichment, lifelong learning, and civic responsibility. To promote respect for diversity issues and concepts.
- Awareness of how to use values in improving our own professionalism.
- Implement values for bridging and harmonizing your employees.
- Learning about personal and communication styles for team building.
- Learning from history, art and music from natural human life.
- Learning management of values.

3. The Context

The college has identified the current requirements of job market for the students and catering contemporary knowledge through conducting Conferences/ Webinars/ Seminars. Nowadays, the market is quite demanding, and we frequently encounter the issue of higher education not fulfilling market expectations. Seminars and workshops are critical in bridging this gap and equipping today's students with cutting-edge technologies. Ensuring proper knowledge flow through Seminars and Workshops, the College promotes passionate contact and active participation, enhancing students' abilities and competence. The importance of seminars and workshops for students is frequently acknowledged as a top priority by the college. The main goal of seminars and webinars organized by the college, which are typically scheduled over one or two days, is to bring together like-minded intellectuals and professionals to exchange ideas, thoughts, and perspectives on a certain subject.

4. The Practice

Seminars and workshops are an innovative and welcomed step towards modern education, keeping in mind the relevance of seminars for students and faculties, the college organized following conferences/webinars-

The uniqueness of above practice followed by the college in last five years is contemporary issues of different fields have been addressed by the speakers. This

provide students as well faculties, a chance to interact with experts from the specific field. Discussing about the relevant topics of the particular subject, students/faculties tend to learn about the latest information and new skills related to the concerned subject. With proper guidance from teachers and experts, students feel motivated to publish their own research paper contributing significantly to the education sector.

5. Evidence of Success

In the conferences and webinars organized by the college, students and faculties from different educational institution had joined to take part. Meeting new people helped the students & faculties in getting guidance and solutions related to common problems. This can not only encourage new ways of thinking and learning but open up new opportunities as well. Even after the completion of seminar or webinar programs, these chains of networking can help the students as well as faculties in escalation of their professional life. The success of these events reflected in the number of students/faculties registered in these conferences/webinars. The data is given below-

International Conference	Mankind at crossroads: Challenges and Solutions	17-18 January 2019	1000+
Webinar	Communication & Effective Leadership	20 August 2020	90
Webinar	Gandhi Darshan	5-6 October 2020	140
National e-Conference	Origin, Current Scenario and Future Challenges of Green Chemistry for Sustainable Development	02 September 2021	300
National e-Conference	30 Years of Economic Reforms in India and COVID-19	03 September 2021	500+
National e-Conference	Biodiversity and Human Health: Conservation in the time of COVID-19	21 September 2021	300
National e-Conference	Samkaleen Sanskrit Sahitya: Vividh Aayam	01 October 2021	500+
National e-Conference	Intellectual Property Rights	22 February 2022	108
National e-Conference	Decoding Union Budget 22-23: Prospects and Challenges	24 February 2022	658 (1.7K views on Youtube)
National e-Conference	Saathottri Hindi Kavita me Yuva Aakrosh	11 March 2022	400+

6. Problems Encountered and Resources Required

- Technical issues while conducting webinar is biggest problem encountered. By taking the help of some technically experts faculties as well as computer operators, this issue has been resolved quite, but e-conference concept was new after the period of COVID-19, so it could become little difficult for some times.
- Data usage, online platform subscription, online registrations, providing of e-certificate, network connectivity, sound and image setting on online platform, engaging audience during long lectures of speakers etc. were some challenges faced during conducting e-conferences.
- Budget allocation was also a big challenge for organising conference on physical mode.
- Getting reach upto maximum audience, participants, students, academicians, and scholars was not much easy.

Resources required- Trained, capable and dedicated staff for conducting webinars or seminars. Also there is a need of big technical support with good network connectivity in college area. Additional budget allocation for these types of events required more attention.
