

Dr. B.R. Ambedkar Govt PG College Bilara (Jodhpur)

NAAC Question 1 –

How does the College assess the learning levels of the students after admission and what are the special measures taken to cater to the differential needs of students?

Answer

College understands the need of assessment to evaluate and improve student's learning process and to validate how well teacher's content and their programs are fulfilling the differential need of students. For this, college has organized Student Advisory Committee. With this objective teachers ask oral questions and take quizzes Or MCQ's in class after completing each and every topic. Students also have doubts sessions after completion of the topic. Teachers also give students a specific topic to teach in class as this practice encourages students to explore their thoughts and opinions and enhance their critical thinking power. Students are asked to submit assignments on given topic and rate their own knowledge about a topic. Students are advised to do research on topic taught in class. Further student's regular attendance, their participation, I Q test, interaction and responses in class help teachers to make their assessment and to measure strengths, weaknesses and cognitive abilities of students and also help to check these aspects which need reinforcement. College organizes various competitions to monitor student's progress in various fields.
