Ethical & Moral values in Teaching

Due to various changes such as modernization, industrialization, urbanization, privatization, globalization as well as influence of western culture accompanied many problems and evils in Indian society that cause declining ethical values in Indian education system . This system has definitely increase literacy rate but not helps in creating educated persons in the society and as a result it does not produce ideal citizens in the country. The main objective of Indian students has remained how to take degree, to earn money and to be careerist without consideration of ethical values and national spirit in their life. Today the Indian society is bound to encounter new and perpetual problems. We see uncontrolled corruption and decrease in ethical values, unlawful activities, inhuman behavior and immoral consumption, which is slowly breaking the structure of Indian society, nation and the world. It is high time to identify the Morality, Education and major causes of declining moral values in Indian education system.

Nelson Mandela said “Education is the most powerful weapon which you can use to change the world” The declining of ethical values in education system will give rise to unskilled professionals, undisciplined students. This trend needs to be addressed if India has to survive as a nation and acquire its due place in the world. Corruption in education, privatization, undue political interference and Inadequate Teaching pedagogy are the probable causes of ethical declining of Indian education system. The only way to arrest this deterioration is to provide value-orientation in Indian educational system. Thus there is an urgent need to reintroduce value based education in the curriculum dealing specifically with human values, to redesign the fabric of Indian educational system. Education should not be business; the most important objective of education should be to equip the students with ethical values. In India ,it is necessary to increase philosophical thinking, to equip the students with ethical value and moral development.

MBR Government College Balotra decided in its staff council meeting to take “**Ethical & Moral value in Teaching**” as part of best institutional best practices and -

- 1 Start each class by one ethical and moral quotes with name of the author / learned personality.
- 2 To display quotes on the walls of the college
- 3 To display ethical and moral quotes in flax , banners etc. during all the functions of the college
- 4 To encourage the students to share the personal problems with their teachers and teachers are advised to give them solutions on the basis of moral and ethical values.
- 5 “Respect The Elders” be the theme for the year .

Cleanliness campaign

Cleanliness is an important quality of life. In fact, it is a habit which is often considered just next to godliness. Cleanliness is a habit not related to the wealth of a person, rather it is a habit which depicts the qualities a person is enriched with. To make the students aware of such a necessary quality of life, we have come up with taking "Cleanliness Campaign" as part of best institutional best practices. To achieve the target it is decided in the staff council to focus on giving the awareness about cleanliness during all the functions, programmes, NSS activities, regarding-

1. To maintain Cleanliness personally
2. Brushing and taking bath regularly
3. Washing hands properly before and after every meal,
4. Maintaining neatly trimmed nails and
5. Eating healthy food
6. Environmental cleanliness
7. Can be enhanced by cleaning
8. Plastic bag usage
9. Effective disposal of used water
10. Not littering the road by throwing the garbage and splitting
11. Adopting reusing and recycling products
