

## S.G.P.B. GOVERNMENT GIRLS COLLEGE PALI

### Library

A library is a place where books make a person aware of the words not only make his life happy but the thoughts take his behaviour to the highest level. A library is a collection of materials, books or media that are easily accessible for use and not just for display purposes. If I talk about the college library, then it has about ten thousand books of different subjects, which acts as a guide for the students.
