

The college understands its Institutional Social Responsibility (ISR) towards environment protection and practices waste management. It has developed a unique mechanism for waste management vis a vis regular practices which include laboratory waste management and wealth from the waste program.

Solid waste management

Blue and Green covered/pedal-pushed dustbins are placed in the premises. Waste bins are placed in the campus at various places like classrooms, faculty rooms, administration offices, computer lab, library, corridor, washroom, common room etc.

Old newspapers, old files, old home assignments etc. are given for recycling to external agencies.

The NSS unit of the college constantly strives for cleanliness. After every week, it organizes cleanliness drive in the campus for collection of garbage and solid waste. Collected solid waste is handed over to the municipal council for further processing. For plastic waste management, an initiative has been started by the Chemistry association of college where students convert plastic waste into useful materials.

Liquid Waste Management:

wastewater is managed in gardens

Liquid Waste generated from the washroom is conveyed to the municipal sewage line. Raw water (wastage water of municipal water filter plant) is taken from a separate pipeline for watering the trees and plants in campus.

E-waste management

E-waste is generated in minimal amount in the college and the same is given to registered vendors, with an undertaking that the same will be processed or recycled in an environmentally sound manner as

per the Government of India guidelines.
