

Crèche

The college administration takes a serious view and recognizes the problems associated with combining academic careers and family responsibilities. Consistent with its recommended policies, the College acknowledges that for faculty members with child-rearing responsibilities to participate successfully in teaching, research, and service to their institution, they must have access to quality child-care facilities.

Indira Gandhi Shishu Grah, operational in the campus since 2019 is a step towards providing the young parents with a new support platform for raising and grooming their little ones. The day-care facilities are available for the children of both its teaching and non-teaching staff, who have to juggle between work and take care of their young children. The Center is operational from 10.00 am to 5.00 pm with flexible timings during examination duties. The children are taken care of by a child care attendant with special care for infants. The kids were engaged for the full day with learning and extra-curricular activities. The responsibility of its upkeep and maintenance is taken up by a dedicated committee.
