

BEST PRACTICES:-

1. Save Environment and resolve environmental challenges – The college has adopted Save Environment and resolve environmental challenges as its special drive to Save Energy and Save Water Initiatives taken by students and staff members. All have been made conscious to use light and water judiciously and any wastage should be prevented. Environment Consciousness activities have been carried throughout the year. To avoid use of plastic and polythene bags, instead use of cloth and paper bags has been encouraged. The students took the initiative of spreading awareness to their neighbours. They even prepared paper bags and distributed to them. Special dustbin were made of cartons and decorated with charts to make them learn about recycle of paper . The college has also taken green initiative within and outside the campus. Approximately 100 Plants were planted in the campus and outside campus. Students were given plants to plant them in their homes and colonies. World Environment day is celebrated throughout the year, many activities like extension lectures, posters ,essay, quiz competition are held to increase their awareness and sensitize them towards the hazards of environment pollution.

2. Holistic development of students-The college is making a sincere effort for the overall development of its students. As 70 percent of the students belong to tribal community they seem to be shy and lack the confidence in exhibiting their innermost thoughts and talents .The staff members through various committees and activities endeavour hard to inspire students and instil confidence in them. The annual literary ,cultural and sports activities prepare students to develop their skills and the prizes awarded to winners inspire them to repeat or even perform better in future. Besides these , other activities like - Self Defence classes, Yoga sessions every year in NSS camps, personality development and skill development lectures held in YDC Training Programme, Women Empowerment, Health awareness Lectures held in women Cell and leadership qualities cultivated through Ranging activities -all provide ample opportunity to train students for future challenges and competitions. This year two small workshops were organised to enhance employability-5 days workshop on Career in Anchoring by Mrs.Anita Jain and 7 days workshop on Fashion Designing with tips on personality development by Ms.Hardika Mehta..A 3 days Yoga ,Meditation workshop was also organized in collaboration with Heartfulness Institute.

Thus the college is striving hard for the holistic development of its students
