

2.3.1 - Student centric methods, such as experiential learning, participative learning and problem solving methodologies are used for enhancing learning experiences

Our College always encourage student-centric learning through various methods such as brainstorming group discussions, quiz competitions, presentations and project work in participative learning and problem solving methodologies. Regular participative activities viz., **group discussions, seminars, special lectures** are organized in the college and the students actively participate in these activities within and outside the college. Students are given **class assignments** for focusing on self study and to encourage independent learning. Different student support systems are available in the college like Library, Computer Lab, Reading Room, ICT based classrooms (Smart Classrooms). Students are trained for Basic Life skills such as First Aid, Self Defense, Swach Bharat activities and Personal Hygiene and Sanitation. Beyond the classroom, college gives high importance to all-round development of students through extra-curricular, co curricular and field based activities. The objective of student centred activities outside the classroom is to engage students as much as possible in learning procedures that require more than reading or viewing the material. These activities play an integral role in allowing a switch over from absorption of information while learning during academic sessions and creating a safe space to relax, interact, collaborate, think out of the box, nurture their talents and leadership capabilities. To increase the concentration in various activities, the college has framed many committees and clubs including the Cultural Committee, Sports Committee, Canteen Committee, Career counselling cell. Both intra and inter-college sports competitions are organized, where students exhibit talent in variety of games, to foster spirit of togetherness and leadership. In order to inculcate human values, ethics and social responsibility, students are encouraged to participate in activities.
