## Student Feedback Report

### Session 2015-16

Feedback of the students for the session 2015-16 was collected by the Internal Quality Assurance Cell (IQAC) of Government College Karauli. This work was carried out during the examination process after completion of academic work. The most important reason for conducting this feedback process during the examination process was that almost all the students are present during the examination and at that time they have absorbed the experiences of the entire session.

This feedback work was completed with regular students. To conduct the feedback work, a questionnaire was Prepared which consisted of 21 questions. This questionnaire covers a wide range of issues- namely the teaching, co-curricular and extra-curricular activities, supportive infrastructure including laboratories and library as well as career aspirations and expectation of students. Through this feedback process, an attempt was made to know the expectations and experiences of the students and by all these, the quality of the performance of the college was evaluated.

Question wise analysis of the feedback collected through questionnaire is given below.

First question Was “how much of the curricula and syllabi are covered in the Discipline in which you are studying?” 90% of the students believed that their entire syllabus had been completed while 5% of the students believed that 90% of the syllabus was completed while the remaining other students did not respond.

Second question Was “The teacher discusses topics and interacts in the class” 85% of the students believed that their teachers interact very well with the class at each point of the syllabus while 10% of the students stated the process of interacting properly, with the remaining students displaying dissatisfaction.

Third question was “The teacher is punctual in the class.” 99% of the students' feedback on this question was yes.

Fourth question was “The teacher encourages participation and discussion in class.” 88% of the students believed that their teachers always encouraged them to take active participation in the classroom and encouraged healthy debate among the students while 7% said it was right whereas 3% of the students were not satisfied with it.

Based on the various questions raised regarding the quality of the library, its maintenance, the seating arrangement of the students in it, it was concluded that 80% of the students were very

satisfied with the services of the library, while 10% of the students were satisfied, 7% Students were found to be neutral, and 3% of the students were dissatisfied.

In response to the questions posed by the students of the practical subjects regarding their labs, 45% of the students felt that the quality of the lab being provided to them was very good while the remaining students were not satisfied with it.

80% of the students were found satisfied on the various questions asked regarding the cleanliness in the college, the condition of the toilets and the arrangement of furniture in the classroom, while 15% of the students were dissatisfied.

On the various questions asked in the context of environment-friendly and greenery in the college, 90% of the students believed that there is sufficient amount of trees and greenery in the college, while the remaining students are considered inadequate.

In the questions asked regarding the application of information technology based technologies in the college, it has served to underline the need for the modern infrastructure of the college, 80% of the college students believe that the information technology based infrastructure available in the college is inadequate There is a great need to improve, only 5% of the students appear satisfied with this structure.

Students were also not happy with career counseling and campus placement, 85% of students expressed their unhappiness, only 3% of students were happy with it.
