## 2.5.1: Mechanism of internal assessment is transparent and robust in terms of frequency and mode.

The college has its transparency initiatives in terms of frequency and mode. There is a standard process of internal assessment in the institution. According to the academic calendar, a student has to appear in the internal examinations. The schedule of the internal examination is decided at the beginning of the session in the form of an academic calendar. According to it, a teacher has to take the unit test, which may be in the form of a written test based on the curriculum. The marks of the unit test are shown in the classrooms, and each student can ask about their performance. They can observe their test copies. The concerned subject teacher keeps the record of all internal exams having unit-test, quarterly examinations and model exams.

Likewise, the blackboard presentation or the PowerPoint presentation is done by Post Graduate students. This method releases the shyness of a student and develops self-confidence, and creates personality development for students in him. In Post Graduate classes, a student has to attend the internal examination compulsorily. Its marks are sent to the university to add to the semester mark sheet. All matters of students are settled by the Internal Examination Committee (IEC).

#### Criterion-2: Teaching-Learning and Evaluation

PPT presentation of internal assessment by M. Sc. Zoology student
