Action Taken Report on student feedback and student satisfaction survey- 2019-20

Response/Suggestion	Action Taken
Visual graphics and electronic media need to be included	In online teaching mode or in presentations, electronic media are used to improve offline class by using projector screens and smart boards.
Extracurricular activities and Educational visits should be organized.	Excursions and field visits are scheduled in each academic session but outing activities are closed due to covid 19 restrictions.
Students should be taken for field trips for different places depending on the topics you are teaching.	Teachers are also interested to take their class in fields, like the Department of Botany and Zoology take their students to Biological park, nursery, college nursery, botanical garden and Mukundra tiger reserve to elaborate the relevant topics.
Teachers should take live online classes.	Many classes are conducted through zoom and Google meet online platforms.
Teaching should be in English medium.	Every student has a different medium so teachers have to be bilingual in their class. Also teachers motivate their students to learn the terminology of subjects in English.
Employment oriented programmes should be organised.	Many job oriented programmes are running like RSLDC, IGNOU and Pratiyogita Dakshta Programme which give certificates also. The YDC cell of the college also organized such lectures in which students can develop their personality and increase their CV writing skills.
Placement and internships should be offered, skill based courses should be introduced and labs should be equipped with good instruments.	The college faculty mentors various students to prepare proposals for DST sponsored KARYA program and IISc. Bangalore sponsored Summer Research Fellowship Program. Recently the college has upgraded the labs with new and advanced instruments under RUSA scheme. The placement cell of the college organizes job fairs and also tells the students about new recruitments in companies.
The number of teachers should be increased.	College sent the vacant seat details to the Department of college education, Jaipur (Raj.).
Motivational seminar should be organized	Women cell, YDC cell, NSS and NCC committees of the college organizes invited talks, motivational lectures and awareness programmes about health.
