

B.B.D. GOVT. COLLEGE CHIMANPURA (SHAH PURA), JAIPUR

4.4.2 - Procedures and policies for maintaining and utilizing physical, academic and support facilities - laboratory, library, sports complex, computers, classrooms etc. (2017-18)

The institution has well equipped laboratories for all science subjects. The laboratory staff including the lab assistant, lab-bearer and peon work hand –in hand with the department faculty members under the supervision of the Head of the respective department. The departmental purchases are made via the general store in accordance with the requirements and funds received from various sources like State Government grant, UGC grant, RUSA etc. the students are benefitted by these rich laboratories for conducting their practicals and each and every student has equal opportunity to enhance his/her knowledge and skill. The college library is partially automated with nearly 60,000 text and reference books. There is a separate reading room and UGC section in the library where students have the facility to sit and read the reference books, magazines etc. issued to them for a few hours.

The institution has a big athletic track, volleyball and a badminton court. The students are motivated to actively participate in sports activities and are trained for inter college, district and state level tournaments by the college PTI.

The computer room of the college is growing consistently and the numbers of computers are being added every year as per the availability of the funds. Computer laboratory is readily accessible to all students. The classrooms are well ventilated and maintained with special emphasis on cleanliness. All classrooms have adequate furniture, boards, tube lights, fans and other facilities required.
