

B . B. D. GOVERNMENT COLLEGE, CHIMANPURA

Student Satisfaction Survey 2016-17

The student satisfaction survey could not be conducted online due to the unavailability of internet facility to the students who are mostly from the rural background. However, a questionnaire was provided to the students to express their satisfaction level with respect to the facilities provided to them by the college. On compilation of the responses, we found that most students were satisfied by the teaching methods and modes used by faculty members. They were also satisfied with the infrastructure available and most were happy with the co-curricular and extracurricular activities conducted during the session. Some students requested to enhance the number of books and magazines in the library, which has been duly notified to the administration. Few also wanted the facility of water cooler for the clean drinking water and toilets for the girls which has been taken up by the IQ AC and college administration and will be soon resolved.
