2.7.1 – Student Satisfaction Survey (SSS) on overall institutional performance (Institution's questionnaire, results and details) 2018-19

Student Satisfaction Survey (SSS) was conducted in physical manner as majority of the student's did not have internet facilities. The questionnaire was filled by approximately 60 students. Most of the students were satisfied with the modes of teaching adopted by the faculty members. Some of the students were satisfied by the basic facilities in college while a few complained about scarcity of drinking water and insufficient toilets. The complaint of the students was brought to the notice of the college administration which was later taken up by the RUSA committee. A few students recommended enrichment of the institute's library and thus steps have been taken to increase the number of available books and magazines. All possible efforts were made to resolve all the above issues at the earliest. Only a few students participated actively in sports activities where as a large number of students participated in clean campus drive. More students were encouraged to actively participate in the above activities. Majority of the students were satisfied with teaching faculties in the college though some of them complained about shortage of teaching staff.
