

## Part-B (4.4.2)

Physical infrastructure is an essential part of any institution. For academic excellence, facilities like library, sports, laboratories and classrooms are not only satisfactory but also maintained properly to provide the best of services to the students and all other concerned. Institution has a large library with sufficient area and more than one lakh books including text as well as reference books. Library has different sections for different subject books in addition to reading room for students and faculty members. Physical verification of library is carried out every year. It is well lighted and properly ventilated with sufficient furniture to provide a comfortable atmosphere to readers. Library cards are issued to students so that they can borrow books from the library and the daily record of books is also maintained.

Laboratories are well equipped and maintained in all science. Lab. assistants are available in all the labs for smooth functioning and to provide materials required by the students during the practical classes. Lab bearers are responsible for the cleanliness and dusting of labs. All chemicals are placed at right place and the nomenclature of chemicals on reagent bottle is clearly visible. The lab staff ensures proper and safe functioning of LPG connection in chemistry department.

Institution has a large sports ground which is well maintained with the help of support staff. Institution has out-door Courts for Badminton, Basketball, Football/Hockey, Wrestling, Cricket pitch Athletics Track and Table Tennis. There is a separate Yoga room too. Students use all these facilities regularly. A sports committee is constituted headed by Professor In-charge for maintaining the sports facilities.

There are two computer labs in the institution and they are well maintained. Classrooms are well equipped with green boards, sufficient furniture, lights and fans. They are kept clean and well arranged.
