

### 7.1.9 - Sensitization of students and employees of the Institution to the constitutional obligations: values, rights, duties and responsibilities of citizens

**Road Safety Programme:** A Good citizen should know about road safety and his/her responsibilities towards society in terms of road safety. Our Institute organised programme on road safety. Students were made aware about rules of the road and their responsibilities towards other people.

**Promoting Constitutional Awareness and Social Responsibility:** Our institution places a strong emphasis on raising awareness about constitutional obligations among both students and employees through various initiatives. One such initiative is "Anandam," which is an integral part of our college education approach and instills a sense of civic duty in our students' minds. Through Anandam, students gain a deep understanding of their role as responsible and noble citizens within society.

**Preventing and Guiding:** To ensure the safety and well-being of all members of our institution, we have established crucial committees, including an anti-ragging committee, a women empowerment cell, and a sexual harassment committee. These bodies are dedicated to preventing, assisting, and guiding students in understanding their rights as well as their responsibilities towards their fellow students and the institution.

**Societal and National Sensitization:** Our NCC and NSS units play a vital role in sensitizing students towards society and the nation. Through various programs and activities, these units instill values of tolerance and harmony among students. They gain practical experience in fulfilling their civic duties in real-life situations and becoming active and responsible citizens.
