

Rajesh Pilot Govt. College Lalsot (Dausa)

Best Practices successfully implemented by the institution are as follows:

1-Improving Teaching and Learning Process The teaching /learning process starts with designing of a lecture plan by the facilitator. The lecture plan is given in advance to the learners. The facilitator initiates a discussion or tells a story or questions the learners before defining the objectives. The objectives of the lectures are defined to specify to the learner the learning outcomes. During the lecture, discussions and questioning is encouraged. Holistic learning is encouraged through the continuous evaluation system. Various forms of assessment are used for continuous evaluation such as group discussions, assignments, PowerPoint presentations, class test to name a few. Various co-curricular activities are also organized for the learners. These activities give an opportunity to the students to put their knowledge into application. An aspect very unique about our teaching /learning process is the freedom given to learners to share their views and ideas. Even ideas that sound impractical are discussed and a proper explanation is

given to the learners why they cannot be implemented. The learner is the part of the learning process rather than just a spectator of the same. A major limitation of the teaching /learning process is the time constraint. The facilitators have various ideas which they would like to implement in their class, however due to paucity of time all of them cannot be implemented.

2-Competitive exam preparation In the current competitive times, the competition for getting employment opportunities in the students has increased tremendously. At such a time, students have to face double problem, they have to complete one more their college education, while on the other hand they have to prepare for competitive examinations. In such a situation, the students have to face extreme mental stress. Keeping this problem of the students in mind, a program called Competition Efficiency has been started by the college through which the students of the college are imparted training to obtain various government and private jobs. This year about 800 students in the college have benefited from this training program. Under this

training program, students are prepared for intensely competitive examinations by subject matter experts and also from time to time in collaboration with various sections of the society Free books are provided. The sessions covered general awareness (UPSC, GPSC, Banking exams etc, currents affairs, English, history, Geography, Logical reasoning, quantitative aptitude etc.) The college has rich library where they are facilitated with books, magazines, news papers etc and peaceful conducive ambience with ample reading space to prepare for competitive exams. Facility of computer and internet is also available in college library.
