CRITERION I – CURRICULAR ASPECTS

1.1 – Curriculum Planning and Implementation

1.1.1 – Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500 words

The institute aims to mobilize and enhance the existing human, infrastructural and financial resources for optimal development of students. The Annual academic calendar is prepared according to the university calendar (https://www.uniraj.ac.in/index.php?mid=3102#ulc2). Institution takes the following steps for effective implementation of curriculum. • The head of departments advise the faculty of the concerned departments to prepare the academic calendar for effective execution of curriculum. • The heads of department prepare plans and allocate papers to teachers and ensure completion of prescribed syllabus in time. • The students are provided up to date library, well equipped labs, computer center and other required facilities. • Tests are conducted in classes to check students' comprehension and grasp of the subject. They are guided and assisted according to their performances. • Student Helpdesk and Drop Box are available for their grievances. • To keep the teachers aware and updated with recent advances in their respective subjects, they are encouraged to attend BOS meetings, seminars, conferences and workshops.

Students	Yes
Teachers	No
Employers	No
Alumni	No
Parents	No

1.4.2 – How the feedback obtained is being analyzed and utilized for overall development of the institution? (maximum 500 words)

Feedback Obtained
Analysis of feedback - Curricular based feedback was received from two different groups, students and teachers. The prime focus was on students' response. This feedback consists questionnaire of different aspects i.e. curriculum, infrastructure and facilities. Student feedback reflected a mixed kind of response. Maximum students were satisfied with their syllabus, content and class room teaching. Some of the students still need some changes in the infrastructure regarding internet facility and wish to have more co curricular activities. Students belonging to different faculties i.e. science, arts and commerce found the clean and spacious classrooms in the college. Students have demanded for smart class rooms. The feedback highlighted the need for skill based courses and project work as the requirement of present times and that this should be put up in Board of Studies meetings by the faculty. Four classrooms were built and the construction of smart classroom was initiated to accommodate the requirements and demands of students.

2.3.2 – Students mentoring system available in the institution? Give details. (maximum 500 words)

Guiding young minds in the right direction is of utmost importance to ensure that they reach their full potential. Students' assistance or support centers, inter faculty dialogue forums, basic amenities, classroom teaching related improvement, teacher-student dialogue for help and mentoring beyond classrooms etc are an integral part of the institutional system. Mentoring is done on an everyday basis in an informal manner, without the ado of formal paper work. The teachers who have already undergone the orientation program are aware of the fact that guiding, counselling and mentoring students is part of the primary functions of a teacher. They are oriented to handle the student concerns with attention. Right from admission till they pass out, the students are constantly under the able guidance of highly qualified faculty dedicated to their growth and evolution into better and responsible citizens. The faculty guides and advises the student. A personal relationship is created which facilitates a better understanding of students' aspiration, strength and weaknesses. This initiative supports student's continuous growth, development and building of personal and professional capabilities. They provide the required guidance and counselling in their classrooms and beyond. The various forums like YDC, Women cell, NSS, NCC, Sahitya Parishad, Kala Parishad, Vigyan Parishad, Vanijya Parishad, etc. help students to attain their potential through multifarious activities conducted throughout the year. The staff, including the Principal, is accessible to the students whenever they require. Given the fact that the students of the college come majorly from rural, agricultural and disadvantaged background, the mentoring becomes very crucial. The mentoring is clearly exhibited in the following areas:- Admissions: – Students are counselled about the choice of subjects and are encouraged to stop out of their comfort zones and explore new subjects and activities. Curricular: - All aides, conventional and hi-tech, are put to use to enable students to understand their curricular material to the full. The faculty promotes reading reference books and journals and instilling a habit of frequenting the stocked college library. Extra-curricular activities: – A wide range of extra scholastic activities are provided by the institution to benefit the overall growth of the students and all are encouraged to participate. By providing a platform to young talent and helping them prepare for various competitions at college, district and state level, we prepare them to face the real world with confidence. Elections: - The students are exposed to the election process through student union elections. First time voters are encouraged and groomed to take their voting rights seriously and be responsible voters. Community work: - NSS, NCC, Scouts, YDC, Women Study Cell are some of the forums through which the faculty mentors students towards community awareness.

2.5.2 – Reforms initiated on Continuous Internal Evaluation(CIE) system at the institutional level (250 words)

The college is governed by the mandate of the Commissionerate, College Education and is affiliated to the University of Rajasthan. Two internal mid-term tests and P.G. seminars have been promulgated and implemented accordingly. Besides these formal measures, teachers take class tests, conduct quizzes and discuss the class test papers. These tests provide a criterion for specifying the weaknesses and strengths of the students. The faculty accordingly discusses and interacts with the students. The seminars organized by the various P.G. departments also provide a way to gauge the students' knowledge and perception. Various Parishad (Academic Council) programmes, YDC activities which include essay writing, quiz, group discussion, mock interview, slogan etc. also manifest the students' understanding of the subject concerned. Extra classes and revision further strengthens the informal internal evaluation process.

2.5.3 – Academic calendar prepared and adhered for conduct of Examination and other related matters (250 words)

The college being a government institution adheres to the academic calendar of the Commissionerate, College Education, Rajasthan. The Academic Calendar provides an insight into all details - right from process of Online Admission to the conduct of annual examinations, including curricular and co/extra-curricular activities. The circular regarding the internal term test is duly forwarded through email to all government colleges including ours. The term tests are usually scheduled in October and December by the Commissionerate and are accordingly taken in the college. The University of Rajasthan being the affiliating body provides the schedule for Annual practical and theory examinations and the college conducts the exams accordingly in the scheduled time. The college strictly adheres to the schedule provided by the University of Rajasthan and to the college education department. In this session, the practical exams began in mid February and theory exams began in March first week. The last theory exam was held on 25th May, 2018. For the session 2017-18, online admission process for UG classes began by the first week of June and by the end of June, the first and the second lists were published. Regular classes commenced from July 1st, 2017. By the first week of August, UG and PG admission process ended. Internal assessment of all the classes was done through quarterly tests. As far as examinations are concerned, practical exams were conducted in mid February for Science faculty and Geography whereas theory exams started in March first week for Non Collegiate students and in Mid March

4.4.2 – Procedures and policies for maintaining and utilizing physical, academic and support facilities - laboratory, library, sports complex, computers, classrooms etc. (maximum 500 words) (information to be available in institutional Website, provide link)

The institutional mechanisms for maintenance and upkeep of the infrastructure, facilities and equipment of the college are as under: Building infrastructure • There is a building committee to look after the maintenance, repair and construction work related to the building and other infrastructure like water, power supply and gas. •A continuous effort is made to provide dedicated and secure space for equipments and tools. • During all maintenance and up gradation work related to civil and electrical matters, various designated committees verify the work done by the contractors. • Institution being RUSA beneficiary, had conducted renovation and upgradation work, which was monitored by PMU (Project Monitoring Unit) effectively. • All minor faults are attended and repaired by hired technicians, carpenters etc. • Maintenance of toilets and service areas are outsourced through various external agencies. Computer IT infrastructure Maintenance and up gradation is looked after by computer maintenance committee from time to time. • Computers are taken care of

regularly by hired professionals to ensure that the equipments perform well. • Dead stock register is maintained to keep account of the non-functional equipments and equipments like computers, printers, etc. •The internet lines are maintained by BSNL Laboratory equipments/ machinery • Gas connection pipe line is checked regularly for any leakage by able technicians. • Stock register of laboratory for keeping a list of chemicals, glassware and any other instruments used in the laboratory is maintained. A dead stock register is also maintained to keep account of the non- functional equipment and machineries etc. • The laboratory equipment is maintained at the departmental level by the staff or through hired technicians annually and/or whenever necessary. Furniture/ related items There is a dedicated staff to look after the maintenance and repair work of furniture and fixtures and other physical infrastructure. The committee brings to the notice of the authority the needs of repair work and certify after the work has been completed. • To improve the physical ambience of the campus, several initiatives are taken from time to time. Some of these are: 1. Periodic painting and white washing of building and labs. 2. Skilled people to maintain the lawns and upkeep of plants. 3. Adequate housekeeping staff for general cleaning and cleaning of rest rooms supervised by a supervisor appointed annually on contract basis.

7.2 – Best Practices

7.2.1 – Describe at least two institutional best practices

Describe at least two institutional best practices HELP - MENTORING THE STUDENTS Objective – Mentor the students to achieve their potential, ensuring all round development by utilizing all the resources available in the college. Context – Located in the rural belt, the role of the college is pertinent as far as higher education is concerned. The students enrolled in this college have a dearth of resources and opportunities. As such this government institution can and has contributed to the development of the students. Practice and Evidence of Success – Students' assistance or support centers, inter faculty dialogue forums, basic amenities, classroom teaching related improvement, teacher-student dialogue for help and mentoring beyond classrooms etc. are an integral part of the institutional system. Right from admission till they pass out, the students are constantly under the able guidance of highly qualified faculty dedicated to their growth and evolution into better and responsible citizens. The faculty guides and advises the students. A personal relationship is created which facilitates a better understanding of students' aspiration, strength and weaknesses. This initiative supports student's continuous growth, development and building of personal and

professional capabilities. Recognizing the importance of ICT for teaching and learning, the institution has promoted and facilitated it in a big way. Faculty has been encouraged and trained to use ICT for imparting knowledge. It uses audio – visual equipments for power point presentations as well as slides and e-content available on SAKSHAT web portal to teach students. The use of e-content on NPTEL, CEC-UGC, V-Labs, A-view and other related websites not only benefits the students but also broadens the horizons of critical thinking of the faculty. Tapping on the accessibility of phones, the apps like Dishari and Hello English(UPER) were developed as a part of the Navachar initiatives by the government. These apps greatly facilitate and enhance learning on the go. The students have been motivated to download and use Dishari and Hello English apps for competitive exams and proficiency in spoken English respectively. The college has provided basic infrastructural support along with pedagogical environment and guidance. Lectures on time management, anger management, legal awareness, Indian constitution, CV writing, employability and communication skills, preparing for competitive exams and personality development by experts are organized. Computer education, as part of the course curriculum along with IT enabled teaching has furthered the goal of imparting quality education. The IGNOU courses run in the college also facilitate the skill development and career prospects. The extra - curricular activities like games and sports, quizzes, debates, essay writing, dance, singing, group discussion and extension activities like NSS, NCC are conducted in the college. These provide the forums for molding the personalities of the students into better citizens. ENVIRONMENTAL AWARENESS AND CONSERVATION Objective – Institutionalize environmental consciousness through measures such as installation of Solar Power Plant, Plantation, Rain Water Harvesting. This would not only reduce the expenses but also reduce carbon footprints. Context - Seth R L Saharia Government PG college is committed to inculcating values of environmental consciousness in students and incorporating strategies and mechanisms to make the institution eco- friendly. This is especially pertinent today when the world is facing grave challenges to the environment. The institution installed Solar Power Plant in keeping with its vision and mission. Practice and Evidence of Success - The installation of Solar Power Plant is a significant step towards our commitment to protect our environment and reflects our determination to continue to work for creating clean and green earth. Two Solar power panels (SPP) with a generating capacity of 10 KW each, have been set up on the rooftop of the college. This is a tremendous step towards the production of green energy and making the campus self-sufficient in power generation and reducing the carbon footprints. As we shift to renewable resources, we save non-renewable resources for future generations. This also reduces the net carbon emissions in the environment, as solar panels have no adverse effect on the air quality. The college has a huge 24 acres campus with expansive open spaces dotted with trees and plants all over. The Environment committee and the Beautification committee works all year round to maintain a clean and green campus. The botanical garden maintained by the department of Botany has herbs and plants of medicinal value, besides the regular flora. Seminars and workshops are often organized to educate about environment and sustainable development. The NCC, NSS, Sports, besides the Environment committee engage in plantation drives. Additionally, the norm of planting of saplings on various occasions is followed. The students and faculty are encouraged to keep the campus green by planting more trees and making the campus plastic free zone. The college maintains a smoke free and vehicle free campus to maintain a clean environment. The college has made adequate arrangements for the parking of vehicles. The college has adopted rainwater harvesting techniques and has built a water reservoir for the same. Fallen leaves are collected in a pit for decomposition and recycling.

7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

Seth RL Saharia Government PG College, Kaladera was started in 1959 to provide access to higher education to students of the rural hinter-land, marked by the dearth of such facilities. Since its inception, it has catered to the academic imperatives of an area of about 80 kms in its periphery. Today it facilitates and fosters the higher education of around 5000 regular students and 10000 private students. There has been a plethora of socio-political, techno-scientific, economic and environmental changes since the college's initiation. However, this dynamic institution, incorporating the necessary changes has evolved into a platform for multifaceted development of the students and the faculty. The institution with its qualified faculty has been striving hard to impart quality higher education to the rural youth. The fact that the students have an agrarian background coupled with economic constraints is considered and all efforts are made to mitigate the hurdles posed by them in procuring education. The faculty of the institution is aware and is accordingly geared to meet the students' needs of this area. This institution aims at promoting knowledge, scientific temper and culture. To make teaching learning effective the institution has a rich library, gymnasium, conference room, well equipped Chemistry, Physics, Botany, Zoology, Computer laboratories, projectors, internet, Wi-Fi and other ICT facilities. The college has the required infrastructure to conduct curricular, extracurricular and administrative activities. The college ensures holistic development of students through participation in the various activities of YDC, NSS, NCC, Yojna-Manch, Women Study Cell, Kala Parishad, Vigyan Parishad, Vanijya Parishad, etc. The facilities for various games and sports such as cricket, badminton, basket ball, volley ball, wrestling, boxing, athletics, table tennis, kabaddi, etc. also contribute to the all round development of the students. The institution has mechanism for academic and administrative auditing. The College aims to prepare its students for life by providing them with an environment of academic enrichment and by inculcating moral and spiritual values in them in such a way so as to enable them to become good citizens and social leaders of the future. The vision of being an institution of academic excellence with innovative orientation, promoting an environment of articulate, moral and socially committed individual in this rural, under developed area defines the contours of the college's distinctive characteristics. The institution aims to produce dedicated citizens, who are ready to work for the betterment of the Society and the Nation. Seth RL Saharia Government PG College, Kaladera was started in 1959 to provide access to higher education to students of the rural hinter-land, marked by the dearth of such facilities. Since its inception, it has catered to the academic imperatives of an area of about 80 kms in its periphery. Today it facilitates and fosters the higher education of around 5000 regular students and 10000 private students. There has been a plethora of socio-political, techno-scientific, economic and environmental changes since the college's initiation. However, this dynamic institution, incorporating the necessary changes has evolved into a platform for multifaceted development of the students
