

Students Satisfaction Survey (SSS) 2017-18

The growth of an academic institution depends upon the continuous evaluation from the students. In the academic session 2017-18 students feedback was received in the form of a questionnaire. This questionnaire contained various parameters on curricular, extracurricular and infrastructure aspects.

Student's response was helpful to analyse the satisfactory aspects and areas needs to be improved.

*63.5 % students found satisfied with classroom teaching.

*59.4% students supported the fair and motivating student- teacher relationship.

*69.4% students admitted the regular conduction of teaching classes.

*83.3 % students were aware of conduction of NSS, NCC and YDC activities in the college.

*73.6 % students witness the regular academic and cultural events during the session.

Students provide satisfactory response for the infrastructure facilities in the campus.

*63.7% students mentioned about visit to the library but demands for some more magazines and reference books of the subject.

*59.5% students satisfied with the working condition of lab equipments.

*71% students admitted to have safe drinking water available in the campus.

This valuable response from the students helps the institution to know about its strength and weakness.
