3 Marks

Ans The more knowledge we get, we grow and develop more in the life. Being well educated never only means to earn certificates and good salary from the recognized and reputed organisation companies or institutions however it also means to be a good and social person in the life. It helps us to determine whether something is good or bad for us and other persons related to us. The first purpose of getting good education is being good citizen and then being successful in personal and professional life. We are incomplete without a good education because education makes us right thinker and correct decision maker. In such a competitive world, education has become a necessity for human beings after food, clothe and shelter.
