(RUSA-2)**

## ABOUT UNIVERSITY

Establishment of Matsya University, Alwar was announced in budget speech of 2012-13 by Hon'ble chief minister of Rajasthan. Gazette notification of university was done on 23-08-2012 (Matsya University Act, 2012 No. 29). According to notification No. 203 (3) March 04, 2015 of the Rajasthan Government jurisdiction on Raj Rishi Bhartrihari Matsya University Alwar spread over the all-academic, teachers training and law Colleges of Alwar district. Raj Rishi Bhartrihari Matsya University Alwar is the only University in Rajasthan catering to the needs of the students of Alwar district. Since the University is located in the Matsya-Mewat region of Rajasthan within the Aravali hills the University thus imparts education and conducts research on the various aspects of this region.

## ABOUT COLLEGE

Government Raj Rishi (Autonomous) College, Alwar is one of the premier colleges of the state of Rajasthan. It is a Co-educational, Postgraduate and Research institute and the only Autonomous College, in the Government sector in Rajasthan. It was established in 1930 by His Highness of Alwar, Raj Rishi Maharaja Jai Singh Ji, an Educationalist entrepreneur who had a vision to empower the people of his native town through education. Thus, catering to the needs of the community in a comparatively educationally backward region of Rajasthan, the college is proudly completing its 91 years of glorious existence with students' strength of about 4000 and faculty strength of 72. The college is situated on a sprawling and sylvan campus ideally located between state capital Jaipur and national capital New Delhi. The College has a cluster of beautiful and spacious buildings with sufficient number of classrooms, computer laboratories, Science laboratories and an independent stadium with a number of playgrounds.

## ABOUT RUSA

### REVOLUTIONIZING HIGHER EDUCATION IN INDIA

The Rashtriya Uchchar Shiksha Abhiyan is the central government's contribution to further the promise held by the rich expanse of India's state universities. The country's future lies in empowering these campuses with all that it takes to enhance learning, better research and promote innovation. A centrally sponsored scheme, RUSA understands that sometimes the most important lessons of life are learnt outside the classroom. So whether it is upgrading libraries or computer laboratories, promoting autonomous colleges or clubbing them to consolidate their strength and forming cluster universities, this programme realizes that every institution holds the power to enrich lives through top-class education.

## MODE OF CONDUCT

The Training Programme will be conducted in Hybrid mode i.e., Online mode (virtually on Google Meet) and Offline mode (Please ensure that you have a Gmail id to attend the ISTTP-IX). Joining Link for the Training sessions will be shared on the WhatsApp Groups.

## AIM

*We can sit back, do nothing, and watch our planet be destroyed. Or we can take action, become advocates, and start making lifestyle choices which are kinder to people and the planet.*

- *Kira Simpson*

The ISTTP-IX mainly aims to provide an academic platform for academicians, scientists, engineers, researchers, professionals, practitioners, and consultants to present and discuss their latest findings about Methods, Modeling, Data and Tools of Environmental Conservation. Relevance of the proposed Training Programme will be highlighted through a series of 28 Training Sessions to be delivered by prominent Industry, Academia, and Environment Experts.
