Dear Participants,
It gives us immense
Pleasure to invite you
to participate in two
days National
Conference on
"Gender Equality:
Issues and
Challenges in India"
sponsored by
National Commission
for Women, New
Delhi. The
Conference would
provide a platform for
academicians,
research scholars,
social activists,
working women,
professionals and
college students, to
discuss strategies
and initiatives that
are required to
empower women
population of Indian
society. Active
participation would
led to academic
excellence and self
empowerment.

About THE CONFERENCE

Women constitute about half of the world's total population, but are still not considered equal to male counter parts. Their position and status have always been inferior to male members of the society. India is a region of striking socio-economic and cultural diversity with wide variations. Due to the development of patriarchal society women have become a weaker section and her functions have been restricted to mere procreation and attending to household chores. She has been a target of social and economic exploitation. Gender inequality faced by women in different ways often reflect the lack of equality and human right to women and the freedom to make decisions which affects their lives and results in widening disparities in human capabilities and association between men and women.

Despite of the constitutional provision and affirmative actions have been taken by the govt. to bring gender equality, there has not been a considerable change in the status of women, still a lot of issues and aspects need consideration. The problem and issues of this marginalized section require special attention. The objective of this conference is to sensitize society towards gender equality. To bring sensitivity about gender based discrimination and come out with a vision and possible solution for a gender fair society.

The Conference will foster discussion among the academicians, social activists, consultants, research scholars and policy makers across the nation on various issues and challenges of gender equality. This forum will also facilitate them to present their ideas and research findings related to gender sensitization and equality.
