08.01.2019	Field work/ Visit on Biodiversity of Shyam Pandia Area	Shyam Pandia Area, Village- Kailash, Taranagar	60

A Brief Abstract of the Event

The Department of Zoology organized a field trip for the final year B.Sc. students on the topic “Biodiversity of Shyam Pandiya area” on 08 January 2019. This area is a rich biodiversity area located near Kailash village of Taranagar tehsil. Shyam Pandiya area is located about 10 km north of Taranagar. The students enthusiastically participated in this trip and observed and studied the biodiversity of the area. In this trip, the students observed many types of animals like invertebrates, amphibians, reptiles, birds and mammals. The students also collected water and soil samples for ecological experiments. This trip was very informative for all of us. It was an excellent way to incorporate knowledge in young minds outside the textbooks.
