## A Brief Abstract of the Event

A field work on the title "Insect Collection and Identification" was organized by the Department of Zoology, Maa Jalpa Devi Government College, Taranagar. This field work was conducted at Forest Department, Taranagar which is 500 meters away from the college campus. About 29 students and faculty members of the Department of Zoology participated in this field trip. Insect collection and identification is a part of the curriculum of PG students, which is included in their special paper 'Entomology'. Killing bottles, insect collection nets, poly bags etc. were used for collection of insects. The students collected a limited number of insects for study. The forest officers were also present to give special instructions about the field study and to collect data. Mr. Hansraj Parihar, Head of the Department of Zoology and the faculty members thanked the Forest Department officers for providing special and valuable information about the field study to the students. The collected insects were studied by the students in the Zoology Lab. Through this field work, the students gained knowledge about collection of insects as well as their identification and preservation.
