# ***Department of Botany:***

## ***Go green .....***

- Botany department of this college is one of the oldest departments. Undergraduate teaching in Botany started in the year 1958. This department has the honor of producing renowned Botanists, which are serving all over India. The location of the department facilitates active work in halophytes and taxonomy including iconic study of herbs plants.

- Department has a very rich botanical museum and have adequate collection of local flora and equipments. Collection of Herbarium sheets of Pteridophytes of the State and abroad are available in the department. The department conducts course in B.Sc. degree and upgraded to PG level in session 2022-23.
- Alumni of this department have glorious achievements. This department has produced good teachers of the subject and many Botanists. Dr. Jehangeer R Quereshi, senior faculty member of this department is one amongst them.
- The department has the facility of interactive smart board for E-teaching with internet connectivity. The department has an open access student library developed by books contributed by faculty members.
