CRITERION I – CURRICULAR ASPECTS

1.1 – Curriculum Planning and Implementation

1.1.1 – Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500 words

As an affiliated college of the M.D.S. University Ajmer, the college follows the syllabi and scheme of examination prescribed by the University for all the faculties for UG and PG courses. The college offers 16 UG, 16 PG, besides M.Phil and Ph.D. programmes in a number of departments. In some of the departments there are specialization options available to the students at the PG level. Within the regulations of the University, the college does not have a vital role to play in the framing of subject syllabi, but some of the senior faculty contributes as members of the BOS of the University. The college encourages research culture and teaching faculty in most of the departments is either engaged in research or supervises students for Ph.D. degree and M.Phil programmes. The college runs classes from 7 AM to 12.20 PM for the faculty of Commerce and from 11 AM to 5 PM for the faculties of Arts & Science to make the optimal utilization of physical and infrastructural resources.

Feedback Obtained
<p>Though the institute have a clear and well defined mechanism for obtaining the feedback from the students to improve the performance and quality of the institutional provisions with we have an informal mechanism to elicit feedback from our students during student related programs, alumni meets, youth festival, assemblage on various occasions, through students union, even in class room interaction and through drop box etc. Healthy interaction with students give us suggestions for infrastructure and teaching learning improvement. Feedbacks from alumni, parents, academic peers, industries and community are obtained whenever possible as informal manner. There is a mechanism for faculty appraisal through the submission of self-appraisal report by all teachers and meeting with Principal. The feedback thus obtained is analyzed. In-house departmental meetings are held to review the syllabi, curriculum, courses and programs. Principal discusses the key findings with the In-charge of the Departments. The changes and suggestions obtained are tabled in Board of Studies meetings through the members of BOS. Internal Quality Assurance Cell however try to seek the feedback through various informal channels. The inputs thus obtained from the students community are used to improve the overall qualities of the institutional provisions.</p>

As one of the premier institutions of higher education in the State of Rajasthan, the institute is governed by a participative management. Cumulative and comprehensive management way empowers the participants, heightens their sense of duty and responsibility, thus catalyzing and ensuring the success of the institution's functioning. The highest decision making body is the staff council which consists of all faculty members of the college. All important operational and policy matters are discussed and decided by the body. Planning board of the college is an empowered decision making body which chalks out major plans to be taken up during the academic session. Functioning of the staff council, aptly epitomizes the participatory management. CCE, Rajasthan, Jaipur communicates notices, circulars and policies of higher education concerning academics, finances and other developmental activities through the Principal. To facilitate quick and smooth communication between Government/ CCE and Principal, Assistant Directors at divisional headquarter are placed. Participatory leadership and team work culture is emblematic of the values of the institute enable the college community to internalize these and in turn develops institutional loyalty as well as willingness to walk an extra mile. This years two practices of decentralization and participative management are following:- 1. At the beginning of every academic session several Committees are being constituted to achieve aims and objectives set by the higher authorities. This bring forth systematic, decentralized manner of working and effective implementation of their assigned work to impart quality education.. 2. 7.2 – Best Practices

7.2.1 – Describe at least two institutional best practices

For overall growth and holistic development of the students a numbers of healthy practices are adopted by this institute. These practices differ in way of working but the ultimate goal is to provide a healthy learning atmosphere which should be student centric with a greener and eco friendly campus. Best Practice I Title of the Practice: Develop environmental consciousness through green and clean Campus Goal: To maintain a green and clean campus. The Context: Environmental education is the teaching of individuals, and communities, in transitioning to a society that is knowledgeable of the environment and its associated problems, aware of the solutions to these problems, and motivated to solve them. UNESCO states that Environmental education is vital in imparting an inherent respect for nature amongst society and in enhancing public environmental awareness. "Think globally and act locally" feeling can be boosted in students when they are provided with practical knowledge of environmental issues. To fulfill this a campaign and drive for plantation is organized in the campus every year. Clean campus mission instill the values for dignity for labor and develops an aesthetic sense in our learners. The Practice: The eco club, a committee on environmental protection, department of botany, NSS units, NCC cadets, staff of the college, NGOs and community personnel making efforts to keep the campus green and clean. During Vanmahotsav, Independence day, ozone day and any other suitable occasion plantation programme is organized under aegis of any one of the above units. Department of forest and environment officers and other experts are also invited to guide these drives. For cleanliness separate pits are constructed to dump the biodegradable and non-biodegradable waste. Awareness campaigns are organized to make the campus eco-friendly, green and clean. Uniqueness: Students are provided the saplings of the plants and asked to grow these saplings in college campus at space provided for it. They are asked to take care of these plants their own. A watchword of this programme is each one-each tree for successful implementation of this scheme. Several NGOs such as Bharat Vikas Parishad, Prayavaran Samvardhan Sansthan are involved for better outputs. Constraints: Safety of plants and water availability are the major problems and constraint. Tree guards are used to protect some of the trees and plant species which are drought tolerant are used for plantation. Rainwater harvesting structures are

found useful for increasing water table. Evidence of Success: This institution has the epitome with 400 standing and mature trees in 21 acres of green ecofriendly campus is one of the evidence of success. Dust and dirt free environment of the campus is another evidence of success. Class rooms and laboratories are neat and clean due to increasing awareness of green and clean campus movement. At a larger extent the environs of the campus becomes pleasant due to these efforts. Problems Encountered and Resources Required: Although the success of this programme is highly satisfactory but from the month of February onwards to month of June care from students side becomes a major limitation and this trend results in mortality of few of the plants. Availability of tree guards from Urban Improvement Trust (UIT) and Municipal Corporation is another limitation this culminates in death of more plants due to cattle grazing. Occasionally Municipal Corporation services are provided to clean the campus through JCB machines and other resources but for regular cleaning of barren area is another challenge for us. Parthenium ysterophorus (Carrot weed) infestation during rainy season creates a nuisance in majority of the barren area of the campus and management of carrot weed invasion is quite difficult.

Best Practice II Title of the Practice: Creating Research Culture in the College
Goal: M.L.V. government College aims to encourage research and innovation in sciences ,humanities and social sciences and commerce field and some allied areas. Towards this goal, the college has encouraged faculty members to participate in various aspects of research in their field of expertise. The **Context:** The institution has a sufficient strength of research faculty to provide the necessary guidance which consciously promotes a research environment on campus. 55 permanent faculty at the institute possess a Ph.D. out of 79 faculty members. Thus, there is a strong impetus from the faculty to involve in research. The **Practice:** The college encourages, PG students to focus on research after completing PG degree. Faculty members are encouraged to undertake minor/major research projects from various funding agencies and guide Ph.D. students. Students can avail schemes of UGC, CSIR, DST, DBT etc. Evidence of Success: The college has created a enthralling research atmosphere that motivates the PG students to engage in research for the Ph.D. degree. Many papers with student authors with their guide have appeared in national and international journals and conferences. Another sign of success is that right from the beginning 75 plus students are awarded Ph. D. and 136 awarded M.Phil. degree. Around more than 625 research papers have been appeared in Journal of national and international institutes. Ten departments out of sixteen departments are approved research centre of affiliating university. One major project and large number of minor projects are in progress in various departments. **Problems Encountered and Resources Required:** Encountered and Resources Required : Additional infrastructures are a prime requisite for research activity. Beyond this seven research laboratories have been established in the college.
