COs :-

Our college offers studies in 05 subjects at the UG level and 3 subjects at the PG level. Programme outcomes and course outcomes for all programmes offered by the institution are stated and displayed on website and communicated to teachers and students. Students who pursue various courses in the college are expected to attain the levels of understanding and learning after going through the duration of their respective degrees. The various aspects of the syllabi and their outcomes are discussed and deliberated at the college academic council, and the teachers are expected to make all efforts to raise the level of understanding to such levels. It is pertinent to mention here that these syllabi are finalised by the academic councils at the university level called the Board of Studies. All the colleges follow the syllabus and keep the students as well as the teachers informed of the course and program outcomes. The teachers endeavour to enhance the levels of learning of the students and the role of mentors in the college is of special importance.

POs :-

The attainment of the program and course outcomes is evaluated by the method of regular and periodic examinations conducted under the auspices of the MDS University, to which our college is affiliated to. The institution is located in one of the backward regions of Rajasthan. But the academic results of our students are one of the best, looking at the average results of past years. The syllabi and outcomes are designed in a manner to raise the level of understanding of the students and enhance their overall intelligence and personality. The outcomes are discussed, evaluated and deliberated at the college level by the teachers and students. A feedback is also procured from the students as well as the teachers. Annual exams become the standard for evaluating the level of attainment of students. The alumni of the college helps in giving a feedback on the attainment and growth of students in their careers.
