## -: SKILL & INNOVATION CELL :-

### “मन के रंग, कॉलेज के संग”

Aiming at constant connectivity of students with the college and respective classes, the skill and innovation cell has proposed an idea of launching an initiative as structured programme namely “मन के रंग, कॉलेज के संग” which will focus on holistic, psychological, entertaining engrossment by which the students engaged in monotonous process in the class can be relaxed, refreshed, relieved and could find the college an interesting place for the self development.

To foster the programme, all the faculty members engaged in 2024-2025, are bound to implement core idea of the programme in the class and where during teaching an interpersonal relationship may be established between the teacher and students by igniting very nature of mind and heart towards something fruitful and students may be benefited to uplift their social traits in their conduct and behaviour.

The incharge of skill and innovation cell, shall monitor the programme and will study desired outcomes. All the faculty members are directed to make this programme success in order to attract students to attend their classes more and more.

As it has been observed, owing to various reason socio-economic phenomena in this tribal belt, students are deprived of facilities. The model college, Reodar. Despite the magnificent majestic structure of building, smart classroom and well qualified experienced faculties in various stream.

Now a days we are of the view that inspite of huge investment and having all the amenities and crafted teaching faculty, both are the reasons are untraceable to find out in order to make students fully connected to the college and faculty member to impart in the NEP. The College has been making continuous constant effort to increase number of students in class.

As per direction of assistant director Shree Balveer choudhary, after a lengthy observation that could be potentially identified after having deep insight into the spectrum of higher education, skill and innovation cell had long discourse with all the faculty members prepared minutes and by common consult this programme is being thought to be useful in order to increase attendance as well as personality development.

First thought blue print has been designed as mentioned under:-
