CAMPUS PLACEMENT REPORT

As per the directions from the Commissionerate of College Education ,a placement cell is constituted in the college which along with Career counselling committee is working continuously for the employability and career options of its students.

Following activities were conducted under the umbrella of campus placement cell:

- In 23-24 in placement drive, a Walk in interview was organized in joint collaboration with NIIT on 16-12-23. Its Senior Executive Shri Mohammad Saddam first gave a lecture on Career in banking in which almost 80 students attended the talk. Later on interview session was held in which 15 students appeared for the interview. Three students Tamisha ,Megha and sheela were selected for the next round which can get them finally selected for the job.
- On 13th May 24 again walk in interview was conducted on 13th May 2024 and students were registered through Google Form and QR Code . 35 students were registered.
- Alumnae students who succeeded in competitive exams and secured government jobs were: Krati Bhatt as IInd Grade Teacher, Neha Soni in Judicial Clerical service. Some students cleared REET exam, Anganvadi supervisors and nursing competitive exams.

However as the college provides non vocational undergraduate degree only, the job certainty of students is hampered. Maximum number of its passed out students opt for higher education degree or PTET and later on for government sector jobs .The limited industries of nearby areas too prefer students from professional background so the private sector jobs too are restricted for students hailing from this tribal belt.
