

## MAHARANA PRATAP GOVERNMENT P.G. COLLEGE, CHITTORGARH (RAJ.)

### The institutional strategic perspective plan

- **Student-centric education: Impetus on Holistic- Development & Skill Based Learning**

The institution has a competent and effective system of strategy making which is in sync with the requirements of the ever changing educational scenario. The institutional strategy mechanism is dynamic and susceptible to the changes. The college is gearing up to meet the challenges of the implementation of the new educational policy and striving to provide quality and employment-oriented education with a focus on skill –based learning. The institution has initiated various measures on its on for the introduction of NEP-2020, the members of the faculty and students are being made aware and mentored to meet out the provisions contained in the NEP that focus on holistic learning and development of the personality besides obtaining degrees and diplomas.

- **The strategic infrastructural development plan: The Master Plan**

The institutional infrastructural strategic development plan has been finalized (in collaboration with the Public Works Department), the blueprint of the same is uploaded on the college website. The college administration is keenly interested in development of college infrastructure. The college IQAC itself has reoriented itself and has put forth several proposals for construction of new and latest amenities for teachers and students. The college aims to upgrade its existing classrooms with modern facilities which include interactive panels, projectors, screens, CCTV installations, etc. Several governmental/semi-government agencies have been instrumental in development of the institutional infrastructure viz. CDC, RUSA etc. The institution will look out for new funding agencies like DMFT for its infrastructural needs.

- **Green Initiatives : Focus of Renewable Energy**

The green initiatives undertaken by the college include plantations, development of botanical gardens, etc. The college aims to harness solar power, and replace the existing CFL, Tube lights, Bulbs with the energy saving LEDs. The college has also developed a rain water harvesting system to recharge underground water; the college is also interested in signing of the MoUs for waste recycling. The efforts undertaken by the college have resulted in bringing the desired results, there is a substantial increase in the green cover of the college and the college has won several accolades for its green initiatives. The college will initiate more measures in near future for increasing the green cover and harnessing of the green power (renewable energy) in the institution.

- **Aiming Gender Neutrality**

The institution aims to achieve the aim of a gender neutral workplace where no preferential treat is given to a specific gender. Equal representation is given as per merit and other considerations, any violations is strictly forbidden, in case of gender-related grievances an effective and timely action is taken, the institution has introduced 'pink initiatives' as the best practice for furthering this cause.
