## Part B

### CRITERION I – CURRICULAR ASPECTS

#### 1.1 – Curriculum Planning and Implementation

1.1.1 – Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500 words

The institution envisions a system that strives for an emancipatory education which shapes emphatic, unprejudiced and enlightened beings. The goal of the institution is to develop resourceful, responsible, resilient, loyal and visionary citizens and to foster social commitment in students. The college is affiliated to Mohanlal Sukhadia University, Udaipur and it follows the University designed curriculum. The Commissionerate of College Education, Jaipur designs an academic calendar which specifies the duration of the term, the date of commencement of the session, holding of student union elections and co-curricular and extra-curricular activities. The college administration forms various committees for effective delivery of the curriculum. The Time table committee prepares the Time table which is followed for the entire academic session. The college has necessary infrastructure and innovative means of teaching and learning. The college has enough computers with internet facilities. Audio- visual aids such as visualizer, overhead projectors, smart boards etc. are there to cater to the needs of faculty members and students. The college has Wi Fi facility for internet access. Teachers prepare schedule work for each subject term wise. The curriculum delivery is effectively done through lectures. Power point presentations are also prepared by many teachers. Printed study material is given to students sometimes which is supplemented by group discussions, seminars and interactive sessions. Monthly tests, sessional tests and term tests are also in vogue. The co-curricular and extra-curricular activities of YDC, Women Cell, NSS, NCC, Games Department, Red Ribbon Club, Road Safety Club, Cultural committee etc. are held throughout the session according to their assigned schedules. The Mahavidhyalaya Vikas Samiti includes experts from service sector, small and medium scale industry and civil society to ensure effective implementation of the curriculum. For quality enhancement, regular field visits are organized by science departments to impart first hand practical knowledge of field and industries to the students. Through these field visits awareness for biodiversity was inculcated among students. Thus the institution has an effective curriculum delivery method which ensures an all round physical and intellectual development by laying stress on moral and ethical values. By exposure to diverse disciplines it also ensures holistic development and life long learning skills inculcating social responsibilities and thus grooming the students to evolve into responsible students. The commissionerate of college education has a well planned mechanism for admissions. The Admission process is online. Nodal Officers for UG courses and PG courses are nominated by college administration. The candidate can view the details of the college he wishes to apply for and fill and upload the admission form and scanned documents to be scrutinized by the college faculty. A merit is generated of the approved forms. After deposition of appropriate fee the remaining seats are filled by generation of successive merit lists. The entire data is stored online and can be referred to any time. Similarly the various scholarships such as Uttar Matric Scholarship, C.M. Scholarship etc. are online and the data remains stored to be consulted later on. The college has a website of its own and all the essential data, circulars, rules, academic calendars etc. are uploaded on the web page.

With the introduction of online admission, the prospectus of the college is made available online to the students on the web page of our college and on the website of the Commissionerate of College Education, Rajasthan, Jaipur. The prospectus provides the following information related to the college like: Important directions related to admission process, detailed information related to subjects in the college and the subject combinations the student can opt for, details of fee structure, information and instruction related to attendance, discipline, Identity and Library card, information about various scholarships, list of faculty members and office staff, general time table for the current academic session, information about curricular, co-curricular and extra curricular activities. All the faculty members of the college act as a strong support system to help the students. Besides guiding them for academic queries, they also provide them moral counselling as and when

needed. Right from the time of admission in the college to their passing out from the college, the students receive customized, timely, practical and confidential advice. The placement and counselling cell helps the students to chalk out academic roadmaps for themselves. The student acquaint themselves with various career options through lectures organized under the flagship of YDC. The students are always free to approach the teachers for any kind of guidance personal or professional. Grievance Redressal cell has been established in the college for redressing grievances regarding academic matters, library, transportation etc. Anti Ragging committee looks after the grievances related to events of teasing, scolding etc. by the senior students. The members of Yuva Kaushal Prakasht help the students continually to discover their own abilities to choose their careers. The discipline committee helps the administration to maintain general discipline in all aspects. A complaint box is installed in the campus near the office. Any grievance can be dropped into the box in writing. The grievances are taken up frequently at the appropriate level and redressed accordingly.

### 2.5.2 – Reforms initiated on Continuous Internal Evaluation(CIE) system at the institutional level (250 words)

Earlier Mohanlal Sukhadiya University introduced the system of internal assessment for UG (Part-1) and PG (Previous) in the session 2011-12 which was adopted by the institution. In the above scheme 25 percent marks in each paper were allotted by the teacher concerned. 10 percent marks were for internal test, 10 percent for presentation and 5 percent for conduct and attendance. As it was not feasible, the paper pattern was changed for UG (Part-I) and PG (Previous) in the next session. 50 percent marks were assigned to MCQ and 50 percent marks for subjective part in each paper. Later on, this pattern too was dropped and the pattern was again changed. Short answer type questions, one line answer type questions and essay type questions were introduced which

continues till date. The institution conducts term tests to evaluate the students progress during the session. These tests help the students to become familiar which the examination procedure laid down by the University. The communication gap between the teachers and students is thus minimized, enabling the students to freely discuss their academic queries. The response to the tests provides a direction to the teachers to improve the teaching methods. The various curricular activities like seminars, practical demonstrations in laboratories, educational tours, field trips and industrial site trips and exposure to students to extra curricular activities like literary and cultural activities and activities of social relevance ensure a continuous evaluation of the students.

2.5.3 – Academic calendar prepared and adhered for conduct of Examination and other related matters (250 words)

Academic calendar is prepared by the Commissionerate of College Education, Rajasthan, Jaipur. It specifies the duration of the term, the date of commencement of the session, holding of student union elections, supplementary and annual examinations, vacations and leaves, tours and camps of NSS, NCC, co-curricular and extra-curricular activities etc. The college meticulously developed action plans for effective implementation of the academic calendar. The entire calendar was followed strictly and all activities were conducted according to it.

Purchase committee, Time table committee and Library committee take important decisions respectively. A duly elected student union is there to work for students and college.

6.1.2 – Does the institution have a Management Information System (MIS)?

No

### 6.2 – Strategy Development and Deployment

6.2.1 – Quality improvement strategies adopted by the institution for each of the following (with in 100 words each):

Strategy Type	Details
Curriculum Development	The institution, as such does not have much say in framing of syllabus. The syllabus is prepared by the university. Some faculty members represent committee of courses and they express their opinion and put forth grievances regarding curriculum in the meetings. The curriculum is being revised and new innovative topics are introduced frequently.
Teaching and Learning	The faculty members are motivated to attend and present papers in seminars and conferences. One smart classroom has been developed by DOIT. A lease line, Wi-Fi connection with a speed of 4 mbps is also provided to ensure good quality of delivery of e-lecture. The students can attend an e-lecture which are simultaneously delivered at various colleges in the State. Various equipments like Overhead projector, Smart board, Visualizer and Digital podium have been purchased and

	<p>installed in the newly constructed seminar hall. Various programmes are now being conducted to ensure better teaching learning process.</p>
Examination and Evaluation	<p>The institution conducts term tests to evaluate the students progress during the session. The committee monitors and analyses the results and suggests corrective measures for students who fail to meet satisfactory progress and required more attention. These term tests are based on the pattern on which the annual university examination is based. This enables the students to become familiar with the examination procedure laid down by the University. The students response in the term tests provides a direction to the teacher to improvise the teaching method.</p>
Research and Development	<p>The various departments organize seminars, extension lectures and workshops to make the students aware of the various research developments. Eleven faculty members are registered Ph.D. guides and twenty scholars are pursuing research under them. The institution has well equipped laboratories and a well stocked library. The ICT facility is well developed. The faculty attends various state level, national and international seminars and conference to keep themselves abreast with the latest developments in their field. The paper presentations are being published in leading research journals.</p>
Library, ICT and Physical Infrastructure / Instrumentation	<p>The institution has a well stocked library and a reading room. More than fifty thousand books are there in the library. New books and journals are purchased every year through budget provided by state government. Newspapers and magazines too are purchased for the students who read them daily. A smart class room has recently been developed by DOIT with all essential equipments like Digital podium, Led TV, Screen projector, Cameras, Speakers, and 4 mbps lease line for Wi-Fi. Besides, the recently build seminar hall has been equipped with a smart board, projector, digital podium and an Inverter.</p>
Human Resource Management	<p>The principal of the institution provides dynamic and requisite</p>

leadership to the organization. He regularly interacts with the faculty to discuss various policy matters and their affective implementation. The institution actively works toward the fulfilment of its mission and vision with the help and support of its teaching and non-teaching staff under the able guidance of its Principal and senior faculty members. At the beginning of the session the principal forms various committees which conduct the duties and tasks assigned to them. Besides, the members of Mahavidhalaya Vikas Samiti, IQAC, Alumni and Student union help a lot to contribute to the overall development of the college.

Industry Interaction / Collaboration

The placement cell organises a job fair every year to enable the students to appear in interviews conducted by officials of various industries and organizations. YDC arranges lectures in which personnels from industries too share their experiences. An industrial tour is organized for science students in which they visit a nearby industry and understand its functioning.

Admission of Students

The admission of students is done online. The interested candidates go through the details of the college, they seek to apply for. The rules and regulations and various benefit schemes are available on the website. The forms filled by the students till the prescribed date are scrutinized by the faculty members. The finally approved forms get arranged merit-wise in ratio to the number of available seats. It saves a lot of man power and time and reduces hassels of paper work. It has provided respite to the students from standing for hours in queues to submit their forms. Adoption of this process has enhanced the reach of our college to a large number of students besides maintaining transparency in the admission process.

### 7.2 – Best Practices

#### 7.2.1 – Describe at least two institutional best practices

1. We have a PTI under whose supervision various students of college participated in the following events conducted by the University- Cross country race, Weight lifting, Power lifting, Best physique, Swimming, Judo, Badminton, Volleyball, Cricket, Athletics, Table tennis and Kabbadi. The College team participated in various events and bagged many medals. Two gold medals and one silver medal were won by students in weight lifting. One gold medal in best physique category and a gold medal for all round performance in body building. The college team stood runner up in 4x100 m. relay race. Students got a silver medal in long jump, bronze medal in 200 m. race and two bronze medals in 1500 and 5000 m. race respectively. Students were selected in badminton, cricket team and body building to represent the university teams. Various sports events were organized at the college level where students participated with great enthusiasm. 2. Red Ribbon Club- The Red Ribbon Club organised awareness programme on HIV-AIDS on AIDS day. Red ribbon club is a movement by government of India and educational institutions. The students spread awareness of AIDS among local people through this club. The youth are encouraged to learn about safe and healthy life styles. The club enables the youth to identify and understand the situation of exploitation and abuse. It sensitises the youth and instills in them the spirit of helping and supporting the sufferers thereby reducing the stigma and discrimination against patients. Students of the club create linkage between youth, government and non-government agencies to access safer and responsible healthy behaviour. The club is active in organizing and facilitating voluntary blood donation camp. The club plays a pro-active role among the youth. A cadre of peer educators are their for seeking and encouraging positive health behaviour as well. For ensuring sustainability of the club, one-day blood donation camp is organized by the red ribbon club every year. The blood group and haemoglobin are checked up prior to donation and a ticket is issued to the donor for emergency purposes. This year the number of blood donation was 57 units. 3. NCC girls wing is working actively and many girl cadets are selected for national and state level camps. This inculcates enthusiasm in the cadets to opt for defence services. Besides, they also actively participate in various programmes related to Plantation, Cleanliness

Drive and Swach Bharat Abhiyan. The cadets did summer internship programme in a near by village related to Swach Bharat Abhiyan and tried to inculcate good values among villagers.

### 7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

On the basis of the recommendations of external agencies to start need-based courses on self finance basis, the PGDCA programme has been successfully launched in the year 2001. The number of seats for this program is 40. Publicity of this programme has continuously been accorded through print media for admission seekers and also for employers to offer internship and placements to students. Identifying the local needs and a zeal to break new grounds of entrepreneurship the college has started this course in order to survive and surpass the competitive word of market paradigm. During the initial stages, the PGDCA department comprising of a laboratory, a department room and a washroom was constructed by the Nathdwara temple board. The furniture and computers were too provided by them. Each student is charged nominal fee for 1 year PG diploma course in computer application and for the last 10 years fee structure has not been revised. There is a need for sustained efforts to futher mobilize financial aid from private sources. As for placement is concerned, the students have largely been selected in government and private schools as information assistant and computer teacher.
