Meeting

A meeting of the IQAC members was held in the office of the principal incharge and chairman of the IQAC Cell on August 02, 2022 at 1430 hrs. The committee approved the minutes of the earlier meeting and made following observations

The committee visited the campus and found the working of students facilities and RO water system. The facilities were satisfactory

The committee members visited the ongoing work of classrooms construction as well as increasing the height of the boundary walls and observed that boundary wall has been increased to sufficient height and barbed wire has also been installed. The committee members enquired the contractor and asked him to expedite the construction work of classrooms.

The estimate of Rs 65 Lakh was given by PWD to cover the area of 80 feet X 50 feet from existing building to the present constructions of classrooms. The committee members felt that the institution should talk to the agency and revise this estimate as around 6 lakh has been estimated for light related work, which seems quite high.
