Meeting

A meeting of the IQAC members was held in the office of the principal incharge and chairman of the IQAC Cell on January 18, 2023 at 1530 hrs. The committee approved the minutes of the earlier meeting and made following observations

The committee members visited the ongoing work of classrooms construction and observed that the work is almost complete and require finishing touches. The committee members enquired the contractor and asked him to expedite the construction work of classrooms.

The revised estimate of the construction work between existing building and the new construction is about 80 Lakhs. The committee members felt that the institution should talk to the agency and revise this estimate as around 6 lakh has been estimated for light related work, which seems quite high.
