Action Taken Report on Alumni Feedbacks

We are committed to addressing the concerns raised in a positive and proactive manner. Firstly, we are thrilled to hear about the pride you feel in being associated with our college as alumni. To further strengthen this bond, we will continue to engage alumni through initiatives such as involvement in college activities and awareness about college activities through college whats app channel.

Your willingness to contribute to the development of the college is invaluable to us. We have established alumni association for contributions, including alumni donation drives, mentorship programs, and provide opportunities for guest lectures or workshops to share your expertise with current students.

Regarding concerns about knowledge acquisition during your course of study, we have taken steps to enhance the curriculum, update course materials, and provide access to additional learning resources. Faculty members are encouraged to adopt innovative teaching methods and incorporate real-world applications to enrich the learning experience and ensure adequate knowledge gain.

We also understand the importance of supportive and cooperative faculty members in providing academic guidance and support. Faculty development programs are conducted regularly to enhance teaching skills, promote student engagement, and foster a conducive learning environment.

In terms of the student-teacher relationship and innovative teaching methods, we are committed to fostering positive interactions and encouraging dynamic learning experiences. By promoting open communication and innovative teaching techniques such as group discussions and role plays, we aim to enhance the overall learning experience for our students.
