ICT Tools

The College believes in providing best teaching practices to the students and to achieve this aim the faculty members continuously make extra efforts towards it. Ever since the technology has started impacting the teaching- learning process, the college has been evolving itself to incorporate the best possible methodology. The teachers try to make use of various ICT tools to be a part of their teaching not only to provide great learning experience but also to break the monotony in the classroom. College is trying its best to provide projectors and mikes in the classrooms. Laptops are provided to teachers, so that, they can use various tools like

- Spreadsheets
- Presentation Software
- Information Literacy Skills
- Google Doc
- Google Forms
- Making a Video

comfortably without any hindrance for various purposes

Last year a pandemic struck us globally, and teaching was shifted from classroom to virtual mode. Ever since then, the teachers at the institution have made them equipped with various platforms available for teaching. Our teachers are using different platforms like google meet and Zoom meeting etc. to interact with students. Google classroom is extensively used to upload the material required for smooth learning. The Jamboard and whiteboard are also used as per the demand of the subject. The platforms like kahoot and moodle etc are also used often for quizzes to make sessions interesting by a few faculty members. Classes are being recorded as evidence and also students can use them for later reference.

The College website has a section for e-resources where teachers upload reading material as per the requirements of a course. These resources can be accessed by the students from the comfort of their homes in these difficult times. It ensures continuous learning for them. Information is being provided to the students so that they can use different such resources available on the website which includes to have more insights. These are helpful to those who are keen learners and want to learn beyond the prescribed guidelines. They are constantly mentored by faculty members on the best way of using IT tools to increase their knowledge base.

The students must make good use of e- resources available for them and links can be viewed on the website of the college. Students will be able to develop required skills if they start getting themselves acquainted with current resources and technology available for them. They can start using various tools of Google like Google doc, Google forms etc. They can also make good use of other applications like kahoot, canva etc.

Inflibnet :-

The INFLIBNET Centre is a major national programme initiated by the UGC in March 1991 as a project under the Inter-University Centre for Astronomy and Astrophysics (IUCAA). It became an independent Inter-University Centre in June 1996. INFLIBNET is involved in modernizing university libraries in India using the state-of-art technologies for the optimum utilisation of information. INFLIBNET is set out to be a major player in promoting scholarly communication among academicians and researchers in College.
