7.3.1 Report on the performance of Institution in one distinct Area

The waste is reduced in Govt. College Rajgarh by training the students and staff with the help of waste management awareness program and its practices through advertisement on notice boards, displaying slogans boards in the campus etc. Waste is segregated in the form of dry and wet waste.

- Colour coded dustbins are used for different type of waste.
- The waste which is segregated is then collected by municipal vehicles for proper disposal.
- Even the furniture which is broken is also converted into reusable.
- We have kept newspaper in library and after collection of all papers. We sell them to old newspaper collector and we get cash which is kept for institutional use.
- Organic waste from girl's hostel is given to a piggery which is good practice.
- The NSS unit have conducted pledge program on 'Swachh Bharat Abhiyan'.
- Printers' cartridges are generally refilled and not disposed off. Wherever refilling is not possible, the cartridges are returned to the manufacturer.
- In order to dispose the acid fumes, chemistry lab is equipped with exhaust fans.
- No water is discharged outside the campus as the treated water is used for gardening.
