## Feedback Analysis of Students 2022-23

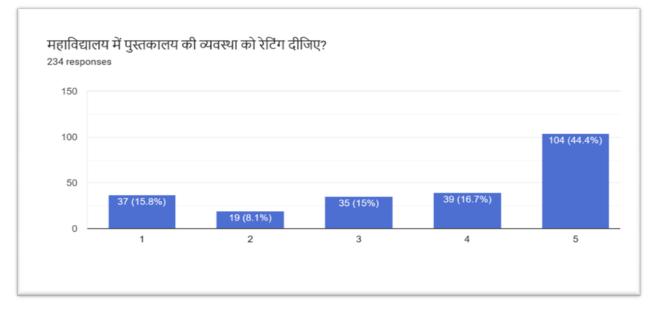

The Google Form created for collecting feedback from the students, both collegiate and noncollegiate, was aimed at deriving evaluation of and obtaining suggestions for the betterment of the quality and management of the academics, human and physical resources and the organization of co-curricular activities in the college. The exhilarating thing about them is that about half of the students found them to stand between 'very good' and 'excellent'. The responses of the students are given below-
