Sambhar Lake, Jaipur (Rajasthan)

Jaipur is popularly known as salt lake city, located at the distance of 100 km to the west of Jaipur. The name of the lake, Sambhar, stems from a legend of a demon named Sambhari, which happened around the sixth century. Another temple near the lake is dedicated to Shakambhari Devi.

The lake has been designated as a Ramsar site (Recognised wetland of international importance) because the wetland is a key wintering area for tens of thousands of pink flamingos, storks, sandpipers and other birds that migrate from northern Asia and Siberia. Sambhar Salt is India's largest salt deposit and even finds mention in the mythological epic, 'Mahabharata'. The lake produces 6,000 tonnes of clean salt every year, which is around 9% of India's salt production and is presently the salt-production managed by Sambhar Salts of Hindustan Salts Ltd. and the state Govt. of Rajasthan. It is one of the plants of the country with UNICEF support.
