## MANAGEMENT OF WASTE

## Waste Management at SRLS College Campus, Kaladera

Solid waste management

E-waste management

Liquid waste management

Biomedical waste management

- •Different Color dustbins are used to collect dry and wet waste.
- Daily garbage is collected by housekeeping staff.
- •Recycling waste such as plastic, papers etc. are collected separately.
- •Canteen solid waste and other waste like leaves, twigs are used to produce compost manure.

- •Stabilized chemical wastes are disposed in landfills.
- •Waste chemicals mixed water from laboratory passes through concealed pipe line into soak pit.
- •Toilet liquid wastes is washed away in to the common drainage.

- •Biomedical waste generated from the laboratory are disposed in to pits.
- •All dressings, bandages and cotton swabs with body fluids and blood animal anatomical waste, are discarded in yellow bags.
- •The E-waste is collected and stored in store room and disposed every year accordingly at the time of physical verification.
- •Empty toners, cartridges, outdated computers and electronic items are sold as scrap to ensure their safe recycling.
- •Old monitors and CPUs are repaired by our technician and reused.
