

FEED BACK FORMS ANALYSIS REPORT : 2022-23

Feedback collected, analyzed and action has been taken

Curricular based feedback was received from 3 different groups: **Students, Teachers and Alumni.**

- The prime focus was on students' response. This feedback consists questionnaire on various aspects i.e. curriculum, infrastructure and facilities available in the institute. Students responded enthusiastically and gave mixed response which were then analyzed and used to improve the facilities. Maximum students were satisfied with their syllabi, content and class room teaching. Some of the students asked for improvement in infrastructure specially the internet facility and want more co-curricular activities to be conducted .Students were satisfied with the clean and spacious classrooms in the college but demanded more smart class rooms. Some of students asked for incorporation of vocational courses in their curriculum.
- Teachers responded towards curriculum with a voice of productive changes in it. According to them the curriculum should be career oriented and must have some practical applications. Some teachers welcomed the concept of prior intimation monthly teaching content to bring the uniformity in completion of syllabus in all the sections but some disagreed with the practice as they find independent teaching methods more fruitful. Faculty raised the voice for revised syllabus .Faculty unanimously demanded for sufficient support staff in the institute.
- Members of alumni feel proud to be a part of the college and they were happy with its progress and dedication towards the students and society. Members of alumni suggested they should be invited more often to the institute to motivate the students and to be given chance to get involved in progress of their Alma mater.

Action taken

- On the basis of students feedback photocopier machine is provided to the library, reading room in library is renovated and computer lab is updated. Students can photocopies of study material at nominal rate.
- In the girls common room sanitary napkin vending machine along with incinerator is installed. Canteen is renovated and laboratory facilities are improved.
- Alumni feedback was positive and they assure their assistance for the progress of the college. Some put emphasis on green campus. Keeping this in view more plants are added in the botanical garden and in science block, Demo farm is extended with the help of different departments ,rainwater harvesting system is repaired and more saplings are planted and taken care of.

Teachers demand redesigning of the curriculum and to achieve this goal they raised the issue in their respective BOS meetings. Some departments have sent the proposals to concerned authorities to start PG courses in their subjects.
