## Policy Document For Divyang Students

The persons with disability are entitled to equal opportunities & rights to participate in the political, social, and economic and self- development activities in all walks of life. Keeping this in mind Achievers College has taken several initiatives to make the campus Divyang friendly. This includes formation of Policy Document. The objectives of this policy is to avoid discrimination, exploitation and exclusion of Divyangjan from all spheres of College life and to deliver services further to take suitable care of Divyangjan with high support needs due to disability, family circumstances or social exclusion.

The detailed policy is as follows:

1. The College Principal shall assign duties & responsibilities to teaching and non-teaching staff to resolve the difficulties faced by divyang students.
2. The College shall provide special facilities for the divyang students and shall create an environment to provide them opportunities to acquire quality education and to bring them into the main stream of the society.
3. The Office Superintendent shall be responsible to provide all the college services to the students with disability on preferential basis without any queue.
4. A Wheel Chair and Walker (to be purchased/ arrangement form PHC) shall be made available in the College campus for the needy students.
5. The chairperson Exam Committee shall be responsible to provide scribe or extra time during the exam if required.

6. The student's toilets shall be provided with requisite facilities for the use of such students.
7. The College shall provide career counselling session to guide and motivate divyang students.
8. A special parking area & ramp shall be provided for the physically handicapped students just near the main entrance. Students who are differently able are entitled to access to all schemes, facilities and services in the College without discrimination.
9. The college shall provide barrier free access, library resources, scribe and the required relaxation in examination to all students with disability as per the equal opportunity, protection of rights and full participation.
10. College shall provide access of disabled friendly knowledge sources and website
11. All departments and Cells shall encourage and ensure adequate participations of divyang students in their respective activities and should provide excess support with special care to boost their confidence level.
12. College, through its different cells, shall provide all information of government, private and NGO facilities and schemes to divyang students and shall ensure access to these available facilities.

This policy should be placed on the website of the college and all departments, administrative sections, all college cells and other section shall strictly adhere this policy.

## Green Campus Initiatives

### POLICY DOCUMENT

Swargia Rajesh Pilot Government College Bandikui is located in rural area in which we have done and are doing the following work which will inspire the coming generations. We have created a Green area in the college campus; about 2000 trees have been developed with the help of forest department in an area of about 8 hectares, which is on the right side while entering the college. This green area is very beneficial and inspirational for the college and the surrounding area. The college is making it mandatory for all members who come by car or motor cycle that they should come by cycle or to walk in a month and further motivate them to come once in a week to walk or by cycle.

Once a week when all the students and faculty members come by bicycle or to walk that will send a message to the town. There is provision for special committee which will work to ensure plastic free environment in the college. The committee will take every possible measure to implement policy principle. To contribute in GHG emission the college has decided to save electricity by replacing old filament bulbs with LED bulbs. The college is also going to explore viability of solar power plant to contribute in national mission of GHG emission reduction to avert climate change and global warming.

### Towards A Greener and Eco-Friendly Campus Goal

A number of trees to be planted towards fulfilling the goal and to provide grass cover patches over areas lying barren. The Eco Club is planning to plant more number of trees in the campus. The challenging issue is maintaining the planted trees because water is the main problem during summer months though we have a water harvesting system but even that fail during the summer season. Digging additional bore wells may solve the problem. The Practice: The Eco Club is working towards

this issue in the campus. The members of the club involve NCC, NSS and Scouts Rover -Ranger student volunteers for tree plantation. Grass patches have been put in various places across the college campus under the supervision of the club. In addition other students are also involved on particular days so that everyone participates in this campaign.

**Uniqueness:** We ask the students to bring some seedlings or seeds from their homes or from nearby place and try to grow them in the college campus. The administration also helps the team to buy plants. Water problem is the only major constraint in this but this can also be overcome by planting drought resistant plant species and using the water so obtained from water harvesting technique.

**Evidence of Success:** The fencing of the lawn has been completed. We have developed a garden divided in 4 blocks and 3 other small garden blocks apart from the Botanical garden. By the order of Commissioner College Education under project of VAN- MAHAOTSAV already 800 plants have been planted and 20 dustbins were kept in the buildings at different places. Students are advised to keep their class rooms clean and they are following it so that the campus is dust and dirt free. The overall environs of the college have become much cooler and pleasant due to the aforesaid efforts.

**Problems Encountered and Resources Required:** With a very large no of Students enrolled at times, some pay less attention to advise due to which there can be seen some unclean areas in some places at times but they are monitored and rectified at the club and the administrative levels. Similarly the survival rate of the planted trees also depend on the water availability for which water harvesting technique is being assiduously pursued in the college.
