Though the examination is conducted on computers connected over a LAN with no internet connectivity at examination centres during the conduct of examination, the availability of internet is essential to download the encrypted question papers at all examination centres before the start of examination and to upload the candidate response & other exam related data to central data centres after conduct of examination. Your support is solicited in ensuring this minimal availability of internet connectivity at all examination centers.

3. Law and Order:

We seek your collaboration to maintain law and order around the examination centers. Given the high stakes involved, it is crucial to deploy adequate security personnel to manage the crowd, traffic and to prevent any untoward incidents.

4. Sanctity of the Examination:

We request to direct all concerned state functionaries to take all possible measures to preserve the integrity and sanctity of the examination.

Your support will be instrumental in facilitating a seamless examination process, and will greatly contribute to upholding the credibility and fairness of the examination.
