Kindly refer to the circular No. F.20(28)Energy/2014 dated 27.8.2019 regarding installation of rooftop solar on Government buildings under RESCO Mode (copy enclosed). As per circular information regarding Government buildings for installation of rooftop solar of the department is to be intimated in the prescribed format. Further, the department is required to authorize officer for signing the PPA with the implementation partner selected by RRECL through transparent bidding process.

Therefore, you are requested to issue orders authorizing the departmental officers for buildings of your department. It is advisable to appoint DDO/Head of Office for the buildings as an officer authorized for signing the PPA with the implementation partner. You are requested to issue necessary orders in this regard and send the list of Authorized Officers to MD, RRECL.

CIRCULAR

Sub: Rooftop Solar Installations on Government Buildings in Rajasthan State under RESCO Mode.

Installation of Roof top Solar Power Plant on Government Buildings has been under active consideration of the State Government from quite some time. By installing Roof top Solar Power Plant on Government Buildings expenditure on electricity can be reduced to a considerable extent. The Rooftop System on Government Buildings can be undertaken under RESCO Mode. It involves no upfront capital investment by the Building owner.

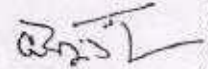

Energy Department has taken an initiative for selecting Implementation Partners under RESCO Mode through transparent bidding process by Rajasthan Renewable Energy Corporation Ltd. (RRECL). They are undertaking transparent bidding process for installation of Rooftop Solar Power Plant under Net-Metering across the State in RESCO mode. The Implementation Partners will be selected through transparent tariff based bidding process. The tariff arrived through bidding process will remain fixed for 25 years. This tariff will be per unit electricity charges to be paid by the concerned Government Departments on whose building the Solar Plant is installed.

The Implementation Partners selected by RRECL will install Rooftop Solar Power Plants under Net Metering on request from the concerned department as per prevailing Net Metering Regulations issued by RERC. No capital expenditure is to be made by the concerned department for installation.

Power Purchase Agreement will be signed between implementation partners and the concerned Head of the Office of the Department. The payment to the implementation partner will be made from the budget head available for payment of Electricity charges. This scheme will result into considerable saving on account of reduction in Electricity Bill of concerned office.

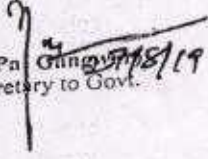

All the Addl. Chief Secretaries / Pr. Secretaries / Secretaries are hereby directed to send the requirement along with the list of buildings to RREC (E-mail : rrec2016@gmail.com) for installation of Rooftop Solar Power Plants on the Buildings under their administrative control through the implementation partners selected by RREC by transparent bidding process.

Enc: As above

(D. B. Gupta)
Chief Secretary
