D.O.No. 3/2/2019-MC

Date: 21 May, 2019

100592
28/05/2019

Dear Sh. Gehlotji,

As we are aware, 5th June is celebrated every year as World Environment Day. Last year India was the global host for the World Environment Day, 2018, the theme for which was "Beat Plastic Pollution". With active participation of all the States including yours in many activities, this event truly became a people's movement.

2. World Environment Day has always been a day of special importance to India. The theme this year for WED 2019 is "Beat Air Pollution". It has been decided to celebrate WED 2019 not only in Delhi but across country to sensitize masses on what can be their contribution to save the environment. The focus will be on the 102 NACP (National Clean Air Program) cities where Government of India is committed to bring down pollution by 20-30 %. List of cities covered under NACP is attached.

3. I would request you to start planning the actions in your State in two broad ways: (i) Awareness on environment conservation especially on the theme "Beat Air Pollution" and (ii) Activities to be focused on Green Good Deeds to "Reduce Air Pollution". In this endeavour, you may take initiatives in your State. Some of the suggested actions are as follows:

- Prepare Audio-Video Creatives and make use of all mediums to spread awareness on Air Pollution. Creatives made by MoEFCC could also be used. These would be available in the Ministry's website (www.moef.gov.in).
- Undertake debates, workshops, discussions on related topics.
- Involve the youth and children in activities of their interest like drawing competitions, poetry, short audio/video making, marathon, cyclothon, etc.

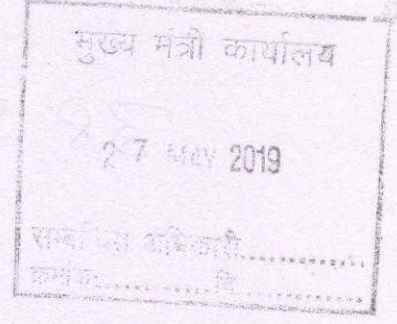

4. I am sure that this opportunity would serve to spread the messages of sustainability along with Development. The aim of this endeavour is to inculcate Green Good habits and practices to dramatically reduce air pollution and promote better Environment.

5. Please join hands with us in this important endeavour. I look forward to visible concerted actions and high level commitment from your State.
