The Principal,
All Government Colleges,
Rajasthan

Sub: Regarding information related to the National Education Policy 2020

Dear Madam/ Sir,

The National Education Policy (NEP 2020) introduced by the Government of India is a comprehensive document that sets aspirational goals to reimagine education. NEP envisions a holistic and multidisciplinary transformation of the educational system with specific emphasis on quality and hence accreditation of every Higher Educational Institution.

To capture the essential data required for implementation of NEP in Colleges, such as status of accreditation, constitution of Research & Development Cell, constitution and registration of Alumni association, preparation of Institutional Development Plan (IDP) and number of beneficiaries with the amount disbursed under various scholarship schemes, a spreadsheet named "NEP-2020" has been shared with the google drive of your college. **You are required to fill in the data related to your college in this spreadsheet latest by 02-09-2022 (02:00 PM).**

(Dr. Vimlesh Soni)
